Attached is a soft file of past correspondence concerning the nature and the scope of our dealings with the BND in the field of Data Processing and related matters. You will note that a considerable amount of information has already been shared with the BND. Most of this was with the approval of the CI staff. If the outgoing dispatch which you have been holding has any item which the CI staff will not approve for passage, let's chat about it and reach a decision one way or the other, as a prolonged delay in getting the material to the field will only aggravate the liaison situation out there.
